

Relevant contextual information about your school and School Development Plan:

ROS school consistently uses a variety of technology and has a strong digital presence continuously throughout the school year across our Grades K-4. Our community profile of households has shown that most students have access to technology outside of school. Digital citizenship is diligently reinforced. We are a WIFI friendly school, with boosted WIFI throughout the school. Much of our tech is used towards assistive technology, related wellness goals and work within the curriculum. At the start of the year a digital citizenship contract is signed by parents and students.

Relevant evidence and data that informs your Digital Citizenship Plan:

- Physical care of technology
- Attendance to Digital Citizenship by Students
- Adherence to Digital Citizenship Contracts
- Use of Assistive Technology

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Theme(s) (these may be from 6 Themes of DC benchmarks)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June

Long term goal #1 Digital Learning	To create conditions to help students engage in their learning.	Evaluate and select information sources and digital tools based on the relevance to specific learning tasks.	Actively expand my knowledge and use of technology tools for learning.	Students	I can articulate how technology can support my learning, and explain why I choose specific technologies,			
				Staff	Provide and model technologies that can support student learning (Google Classroom), and explain what different technologies are useful for.			
				Parents	Support in the use of technology that can support their child's learning (Google Classroom).			

Long term goal #2 Digital Safety & Security	To responsibly manage and protect digital identity and online presence.	Promote positive learning environments for each student.	Support the creation of welcoming, caring, respectful and safe learning environments for students.	Students Review PowerPoint that explains the 9 elements of digital citizenship	I can create and manage my own accounts and passwords. I am mindful of how a personal identity is developed, both on and offline. I know that everything that is posted online is public and permanent, not private or temporary.			
				Staff Teachers will present the PP and provide the opportunity for discussion and reinforce importance of	School will adopt a whole school approach that supports student personal development, character and citizenship by managing			

				PowerPoint presentation	discipline through a progression of proactive, preventative, and restorative strategies			
				Parents	Support in the management of their child's private accounts, passwords and digital online presence.			
Long term goal #3 Student Code of Conduct	To adhere to our Student Code of Conduct	To outline the roles and expectations related to student conduct.	Identify key responsibilities and accountabilities for CBE students.	Students Will be able to speak to What It Means to be a Good Digital Citizen	I can recognize the consequences of my digital interactions on others. I use collaborative tools to work with others in online environments.			

				Staff What Does It Mean to be a Good Digital Citizen	Responses to student behaviour include a consistently applied, school-wide approach that includes fair and predictable responses to unexpected behaviours.			
				Parents What Does It Mean to be a Good Digital Citizen	To support their child's digital learning environment and reinforce the importance of good digital citizenship.			

Next Steps & Focuses for the Coming School Year

- Password Change tool to support increased online security –completed and ongoing.
- Access system administration tool when applicable – all teaching staff have this permission

- Evergreening ongoing
- Use of assistive technology as possible for 1:1 use. We have an Assistive Tech Chromebook cart with tech for grades 2-4 that can be used for students who need these devices
- We would like to get robotics being used more across the school
- Use of online resource booking tool
